Risk notice

Whenever you enter into Forex/CFD/Crypto trading, you must be aware of the risks involved. We strictly recommend that you read and understand the risk notice below.

Forex/CFD/Crypto trading involves significant risks

Forex/CFD/Crypto trading is a speculative trading in its essence and therefore bears risks of losses. Depending on your proficiency and market understanding level it may not be suitable for all the investors. It is recommended to be aware of the Forex/CFD/Crypto trading, have a knowledge about the markets, underlying asset types, industry standards and rules applied. It is also presumed that none of your investments constitutes a significant part of your income. It is not recommended to invest more than 5% of your total monthly/yearly income into any sort of trading. By entering into the Forex/CFD/Crypto trading you unconditionally agree and understand that it may result in the total loss of your investment as a result of incompetent trading decisions and/or market fluctuations.
